2015 – The Restaurant & Bar Design Awards Ceremony (The Story – Building Emotions)

Working with this year's set designers (B3 Designers, DesignLSM and Dexter Moren Associates), we will create an Awards ceremony set called 'The Story – Building Emotions'.

We have identified seven stages of the building process and seven matching emotions. The designers have each created a series of seven highly visual mood panels which will be assembled 'live' at the Awards ceremony to finally reveal each designer's completed build vision.

The building stages and emotions are:

- 1** Ambition / Intent
- 2** Interpretation / Expression
- 3** Research / Curiosity
- 4** Creation / Braveness
- 5** Implementation / Commitment
- 6** Delivery / Trust
- 7** Realisation / Triumph

The 'Great Reveal' – The Old Truman Brewery

2014 – The Restaurant & Bar Design Awards (The Great Reveal)

The Great Reveal project was an 'act of architectural theatre'. A celebration of British design and the eclectic mix of food and drink we have within these shores, we created a 'reveal' where various restaurant & bar spaces were 'exposed' as the evening of the Awards progressed. Entirely white, the set was highly dynamic and interactive.

Inspired by the music from three British eras the 1880s, 1970s and the 2000s, three hospitality designers (Harrison, Michaelis Boyd Associates and d-raw) created three very different food and beverage spaces.

2013 – The Farmiloe Building (The Box Project)

2013 – The Farmiloe Building (The Box Project)

The Farmiloe Building invited us to celebrate the fifth anniversary of the Awards. We invited five overall winners from the previous five years to create five food and beverage areas using only specified white materials found in one metaphoric box. The 'Box Project' challenged the designers to create contrasting bar and restaurant spaces. Cutting edge technology and lighting inspired guests to move from one area to another, where different Awards were presented to the winners.

2012 – The RIBA (The White Line)

2012 – The RIBA (The White Line)

The Royal Institute of British Architects invited us to hold the Awards at their superb Head Quarters at Portland Place. Reflecting the building's 1930's interiors, we created a white 3D art deco 'line' that welcomed guests as they arrived at the building. The 'line' moved through the building eventually becoming the main bar and then the Awards stage itself. The 'line' lit up and interacted with the movements of the guests enjoying themselves at the Awards ceremony.
